DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 21 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by McLaughlin. Note, the “adapted to” clauses are language that suggests or makes optional; and therefore, does not serve as a patentable limitation. [Examiner's Note:

Column 6, lines 14-16:

Power 414, which may be any available commercial voltage including 120 V, is connected to the air compressor motor.

Column 4, lines 54-57:

Equivalent to a coin mechanism is a credit card device, card reader, currency mechanism or any other vend type money receiver system or money transfer system.]

3. Claims 21 and 31 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Nikolic.

Response to Arguments

4. Applicant's arguments with respect to claims 21 and 31 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
